

iSHOP (Secondhand clothes store)

iHOPE is asking people to donate second-hand clothes for shipping to South Sudan.

The clothes are going to be cheaply sold to the orphans and widows and other disadvantaged groups. The store will also buy locally made materials, arts and paintings produce by our artist and field coordinator. We will sell them to make money for our orphans' education and widows' vocation training projects. iShop will be employing widows, orphans and widowers in need.

Book Writing Project

Informing the society is also part of a donation. We welcome anyone on board to write on sensitive as well as largely uncovered topics in the name of charity.

This is targeted at talented as well as upcoming writers who can communicate excellently in writing in whichever language.

Aside from seeking help from the writers, we will be seeking editing and publishing assistance from editors as well as publishers. Please donate your precious time to edit and publish our books. The money generated will go toward our orphans' education and widows' vocational training projects
